Subject: Request to Declare Emergency Status – Brewton Campus

Dear Mr. Baker,

Respectfully,

I am writing to request consideration of declaring an emergency status for the Brewton campus of Coastal Alabama Community College following the impacts of Hurricane Isaias.

The severe damage sustained by campus facilities and infrastructure as a result of Hurricane Isaias has significantly impacted the Brewton campus and its normal operations. Given the extent of this storm damage, we respectfully request that emergency status be formally declared to streamline the necessary recovery efforts and address infrastructure repairs.

I would appreciate your consideration of this request and guidance on the appropriate next steps. Please let me know if any additional information or documentation is needed to support this process.

Sincerely,

Aaron Milner
